Going well. We have been at it all day and they have been pretty forthcoming – have said a lot about their roadmap, future products, two acquisitions they have done, etc. We are currently in with Amazon Delivery Experience team – they are talking about partnership proposal. ██████████
██████████

But, yes, there is some news that we need to catch you up on. I think you, me, Rob W., and Nick K. should huddle up before dinner. Jamie pulled Nick aside this AM mid-way through the meeting. Jamie said he had received two text messages – one from ██████████ and one from ██████████ – saying that they had heard Amazon had signed a term sheet to acquire Blink. We don't know how ██████████ and ██████████ discovered this. One theory is that perhaps Ring was the other party trying to acquire Blink (that sort of blows one's mind, no?) and that ██████████ and ██████████ peppered Blink's banker to find out what is going on. I think that is plausible. Nick did not confirm anything – just said, "you know we have been looking at all the companies in this space, etc." Nick reminded Jamie that Jamie had been mistaken back in August when he told Nick he had heard we were acquiring ██████████

Regardless, we should get aligned before dinner. They might probe around that tonight.

Thanks.

DB

How are the meetings going? Anything I need to know before heading in?
